

Internet Safety Policy

PYC Arts & Technology High School

Introduction

PYC Arts & Technology High School (the "School") is a program of Plymouth Christian Youth Center ("PCYC"). It is the policy of the School and of PCYC to (a) prevent user access over its computer network to, or transmission of, inappropriate material via Internet, electronic mail, or other forms of direct electronic communications; (b) prevent unauthorized access and other unlawful online activity; (c) prevent unauthorized online disclosure, use, or dissemination of personal identification information of minors; and (d) comply with the Children's Internet Protection Act [Pub. L. No. 106-554 and 47 USC 254(h)] ("CIPA").

Definitions

Key terms are as defined in CIPA.

Access to Inappropriate Material

To the extent practical, technology protection measures (or "Internet filters") shall be used to block or filter Internet, or other forms of electronic communications, access to inappropriate information.

Specifically, as required by CIPA, blocking shall be applied to visual depictions of material deemed obscene or child pornography, or to any material deemed "harmful to minors," as defined in CIPA.

Subject to staff supervision, technology protection measures may be disabled for adults or, in the case of minors, minimized only for bona fide research or other lawful purposes.

Inappropriate Network Usage

To the extent practical, steps shall be taken to promote the safety and security of users of PCYC's online computer network when using electronic mail, chat rooms, instant messaging, and other forms of direct electronic communications.

Specifically, as required by CIPA, inappropriate network usage includes: (a) unauthorized access, including so-called "hacking," and other unlawful activities; and (b) unauthorized disclosure, use, and dissemination of personal identification information regarding minors.

Education, Supervision and Monitoring

It shall be the responsibility of all members of the School staff to educate, supervise, and monitor appropriate usage of the online computer network and access to the Internet in accordance with this policy, CIPA, the Neighborhood Children's Internet Protection Act, and the Protecting Children in the 21st Century Act.

Procedures for the disabling or otherwise modifying any technology protection measures shall be the responsibility of designated representatives.

The designated representatives will provide age-appropriate training for students who use the School's Internet facilities. The training provided will be designed to promote the School's commitment to:

a. The standards and acceptable use of Internet services as set forth in the School's Internet Safety Policy;

b. Student safety with regard to:

i. safety on the Internet;

ii. appropriate behavior while on online, on social networking Web sites, and in chat rooms; and

iii. cyberbullying awareness and response.

c. Compliance with the E-rate requirements of CIPA.

Following receipt of this training, the student will acknowledge that he/she received the training, understood it, and will follow the provisions of the School's acceptable use policies.

Adoption

This Internet Safety Policy was formally adopted by the PCYC Board of Directors at the public meeting on November 18, 2019, which followed normal public notice.
